

What should happen to you in an emergency?

Recommended Summary Plan for Emergency Care and Treatment

What is it?

The ReSPECT process creates personalised recommendations for your clinical care in emergency situations in which you are not able to decide for yourself or communicate your wishes.

Who is it for?

Anyone may have a ReSPECT form, but it will have increasing relevance for people who have particular needs; for those who are likely to be nearing the end of their lives; or for those who want to record their care and treatment preferences for any other reason.
